In addition, each organization must describe the innovation end-user empathy work that has been conducted.	* *
Why B Pleas	vould you consider this project to be uniquely innovative? (required) U 注 言 :	* *

.

In your response, incorporate the five phases of design thinking: **Empathize, Define, Ideate, Prototype, and Test**. Specifically, explain how you identified and understood the needs of your target audience (Empathize), defined the problem you aimed to solve (Define), generated and refined ideas (Ideate), created prototypes to explore potential solutions (Prototype), and tested these prototypes to gather feedback and iterate on your design (Test).)(

F

What is your COLLABORATIVE proposed solution to address this problem? (required)

4	•

(Please give 2-3 quantitative and qualitative metrics. You will be asked to report on these at the one-year mark.)

Metric examples

- 10 church planting trainings are held with 80 leaders. Each leader is expected to start 5 groups (400 total groups) with 50% of groups finishing all modules. Each trainee will start 5 home church groups.
- 6 new videos are posted online in Farsi with approximately 9,000 unique views per video, per month. 1% of views (540) per month leadto one-on-one spiritual conversations with the team via YouTube and Facebook.
- Church Certification Training with 8 churches over the next 18 months resulting in 90% of participants having created implementation plan as a result of the training.
- 41 water wells functioning at 95% and above after 12 months providing access to clean water to an estimated 20,500 people.
- As a result of WASH training, a 50% reduction in childhood diarrhea with 75% of households reporting improved health after 12months.

Can you provide examples of past projects that demonstrate your organization's ability to successfully implement innovative solutions? (required)
